PROFESSIONAL SUMMARY

Experienced Java Backend Developer with over 2 years of expertise in utilizing Spring Boot to design, develop, and implement robust APIs. I have demonstrated proficiency in technologies such as Spring Security, Spring MVC, Hibernate, and various database integrations, AWS cloud services etc. Proven track record of contributing to the creation of cutting-edge solutions, including the development of an ERP system used by major banks and SACCOS, Ecommerce Applications and a Sacco management system solution. Seeking to bring my skills in Java programming, backend development, and API design to a dynamic team, life-long learning, contributing to team success.

SKILLS

Critical thinking and problem solving

Team leadership

Advance Analytical Thinking Skill

Java Programming: Proficient in Java with a focus on backend development using Spring Boot framework.

Experience in building and scaling microservices.

Backend Development: Over 2 years of hands-on experience in developing backend solutions for banks, sacco's, learning institutions and personal projects.

Restful API Design: Strong understanding of API design principles and best practices in creation of effective, reliable, and user-friendly APIs.

Problem-Solving: Proven ability to troubleshoot and resolve complex issues.

Attention to Detail: Meticulous in ensuring the efficiency and security of developed APIs.

PROFESSIONAL HISTORY

BACKED SOFTWARE ENGINEER

EM TECH SOLUTIONS / 01/2022 - 12/2023

Designed, developed, and implemented APIs using Spring Boot, ensuring efficiency, security, and scalability.

Contributed to the successful creation of an ERP system solution currently utilized by major banks and SACCOS.

Collaborated with frontend teams to understand and incorporate frontend practices for seamless API integration.

- Expertise in Java development with over 5 years of experience in creating efficient and scalable backend solutions.
- Demonstrated success in designing and implementing complex systems, utilizing advanced programming techniques and tools.
- Experienced in developing RESTful APIs and integrating third-party services to enhance overall functionality.
- Proven ability to troubleshoot and resolve technical issues, ensuring smooth functioning of backend processes and minimizing system downtime.
- Dedicated team player with excellent communication skills, able to collaborate effectively with cross-functional teams to deliver high-quality results on time.

EDUCATIONAL HISTORY

CO-OPERATIVE UNIVERSITY OF KENYA

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY,

HOBBIES

Dancing , Travelling and Exploring

CLASS OF 12/2022

-Active member of sports and chairperson of the school drama club
